

SWANSEA
SEED FUND

www.swanseedfund.com

What is the **Swansea Seed Fund**?

At a time when the possibility of young people gaining employment here in Swansea is limited, the development of enterprise skills becomes increasingly important. The Swansea Seed Fund has been created to encourage young people to start businesses and to provide the confidence and support to help these businesses succeed.

The vision for the Swansea Seed Fund is to nurture and support young entrepreneurs to take their ideas forward into business start up and to develop the entrepreneur talent pool within the City of Swansea thereby supporting jobs and growth.

**Are you aged 16-25 with an outstanding business idea?
Could £500 help turn your business idea into reality?**

What will the **Swansea Seed Fund** do for young people in the area?

We understand how daunting it can be to take an idea from the classroom to the reality of setting up a small business, and research has proven young people certainly need help to do that. Furthermore, we know that what young people need is financial and advisory support to help them translate their ideas into a viable business.

By increasing business start ups and encouraging entrepreneurship in the City of Swansea we will be able to assist young people to create sustainable businesses, provide opportunities of work for others, and help develop the region through a localised entrepreneurial talent pool.

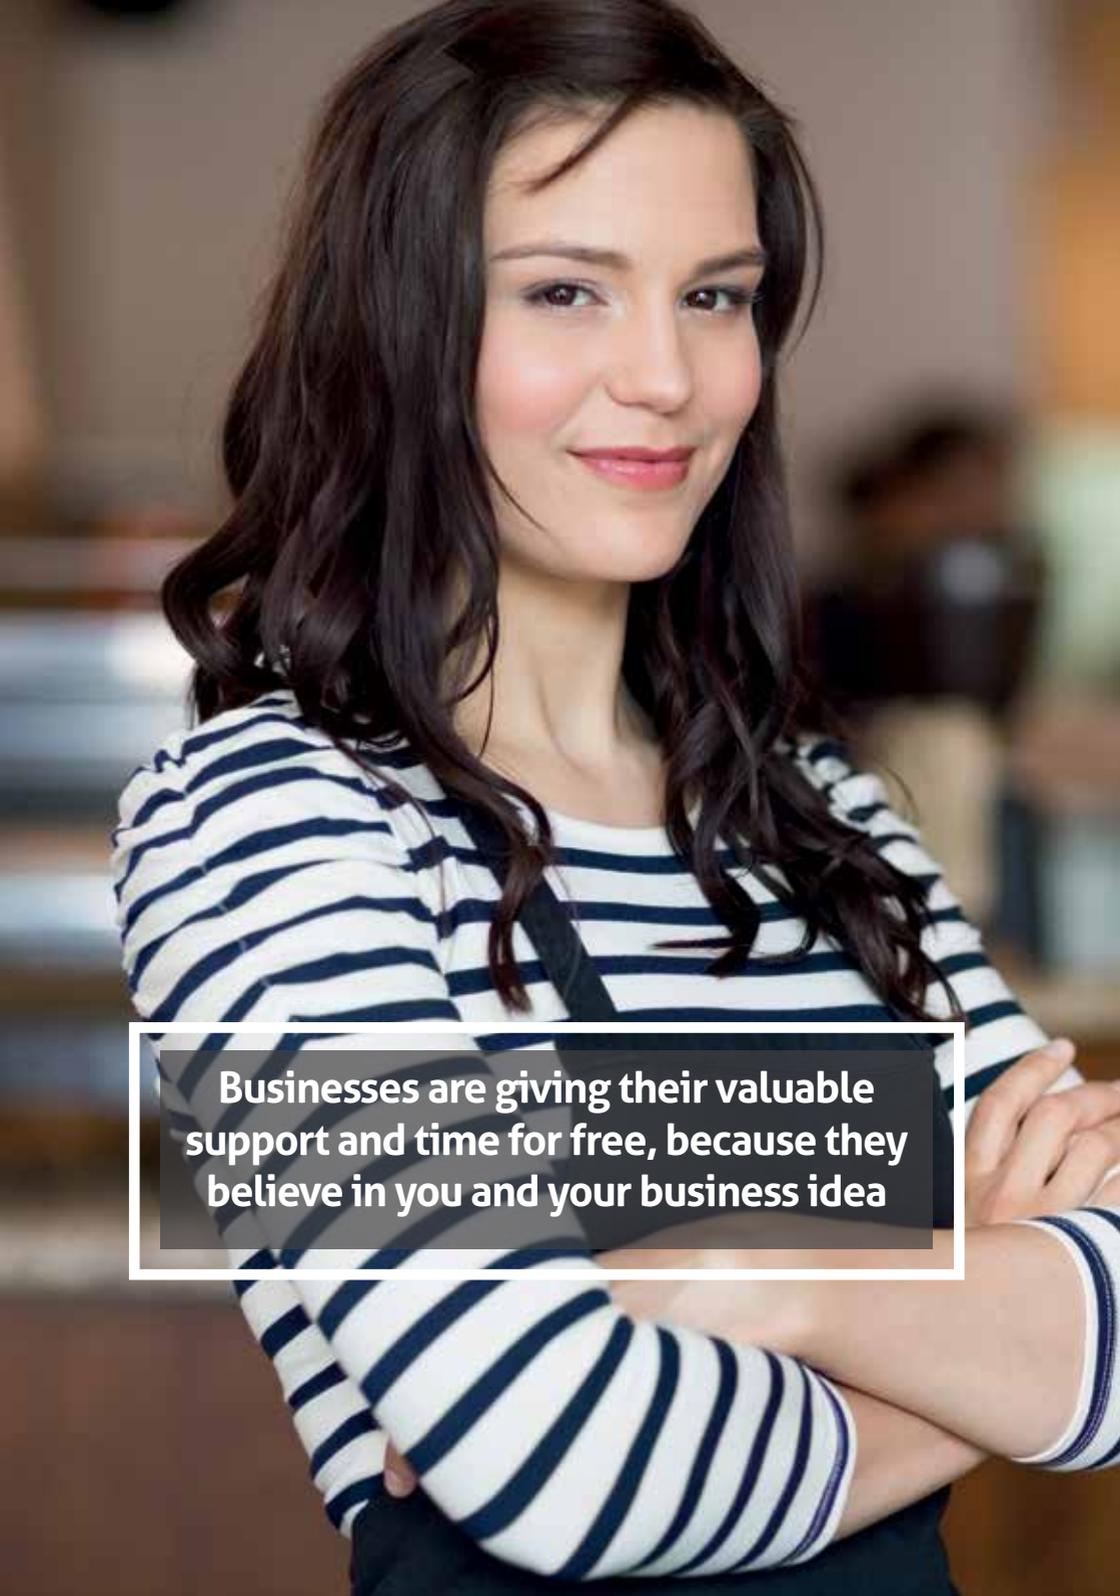

What will I get help with?

If successful, you will receive £500 funding which you can put to use in any aspect of your business. You will also benefit from support and mentoring from local business people who will provide you with invaluable advice and guidance. These mentors are entrepreneurs themselves they have built up their business from scratch or they work for highly successful innovative businesses that realise that young entrepreneurs in Swansea, like yourself, need support.

**Support, mentoring and funding,
just the right mix to get your
business off the ground**

Businesses are giving their valuable support and time for free, because they believe in you and your business idea
